

FIBERTEC

GERMAN CLEAN AND CARE

Instructions for use for shoe care and impregnation

Black Wax Eco

1. Clean shoes
2. Work the wax into the leather with a brush or cloth
3. Wipe off excess wax with a rag

100 ml is enough for approx. 15 - 20 pairs of shoes

- ★ Note: Do not dry leather in the sun or under the heater.
- ★ Note: Wax can stain, if you are unsure test it on a hidden spot first.
- ★ Note: Wax gives leather a typically greasy surface.
- ★ Note: Irreversibly changes the surface structure of suede / nubuck leather.

Tip: Test in a hidden spot first.

When using, please observe the safety instructions on the product label!
